

POSITION: TECHNICAL DEVELOPMENT LEAD

ABOUT KALDOR

Kaldor Brand Strategy & Design is one of Western Canada's leading independent communication design firms. Our mission is to provide sound brand strategy together with compelling and appropriate design solutions that bolster our clients' businesses and create new opportunities for growth. Founded in 1996, we focus on three client segments: educational institutions (UBC, BCCAT, VCC), corporations (Coast Capital Savings, NovaGold, TimberWest, Neuromed) and social/cultural organizations (Vancouver Art Gallery, ICASC). Our success is the result of attracting the finest creative and strategic talent, and creating a collaborative environment that realizes the potential of the team.

POSITION

Kaldor seeks a technical developer who can translate our designs into interactive environments. The candidate will be responsible for developing the technology applications that deliver immersive, designed interactive experiences. A Development Director is assumed to have an understanding of new technologies, broad familiarity with a range of technology solution areas and current knowledge of industry trends and developments.

PRINCIPAL ROLES

1. Technical design, writing code and testing for web sites and Flash animation; motion graphics expertise would be ideal.
2. Problem solving to translate 2D designs into interactive environments.
3. Project leadership and management in the development process.

QUALIFICATIONS

A minimum of three years experience, ideally working with creative consultancies.
Expert knowledge of HTML, CSS, XML, XSLT and Flash.
Demonstrated experience with version control and project management.
Ability to formulate and present technology and architecture recommendations.
Both a collaborative and entrepreneurial spirit.

TO APPLY

Send resume/CV to info@kaldor.com.
No phone calls please.
This is a full-time position in Vancouver, British Columbia.
